- Fully Formulated, Blend of Organic and Petroleum Solvents
- Dissolves Wax and Ice Crystals
- For Use in #1, #2, #4, and #6 Fuels
- No Harmful Alcohols
- No Chlorinated Solvents or Methanol

### Description

**Thaw-It™** uses a unique blend of organic and petroleum solvents to dissolve wax and ice crystals that cause fuel to gel. When used as directed, begins to work within 20 minutes and will completely re-liquefy the fuel throughout the entire system. **Thaw-It™** can be safely used in #1, #2, #4, and #6 fuels. Contains no chlorinated solvents, methanol or other harmful alcohols.

### Directions

For best results, add contents to fuel tanks according to printed directions. Use 32 ounces for each 50 gallons of fuel (1:200 treatment ratio). Remove Fuel Filters and mix **Thaw-It™** 50/50 with fuel, pour balance into main tanks, wait 20-30 minutes then start engine. **Please note that this product is to be used for emergencies (gelled fuel) only. It is not intended to be used on a regular basis.** For regular cold weather treatment of fuels, use **Polar Flow™**, **CFT – Complete Fuel Treatment™**, or **Corona Heating Oil Treatment™**. For more information please consult the Material Safety Data Sheet for this product. All used and unused product and its containers should be disposed of in accordance with all local, state, and federal regulations.

**Keep This Product Out Of Reach of Children.**
